MATTEO

- Early maize hybrid – FAO 290.
- For both grain and silage.
- Dent type maize.
- Plant height - high.
- Number of rows in ear: 16-17.
- Number of kernels in a row: 42-46.
- Stable grain maize yields at low harvest moistures: over 9 000 kg at suitable conditions.
- Matteo shows very good silage maize potential with a beautiful stay-green.
- Excellent lodging resistance and healthiness.
- Recommended sowing rate for grain: non-irrigated conditions: 60 000-65 000 plants/ha; irrigated conditions: 75 000 – 80 000 plants/ha.
- Recommended sowing rate for silage: first crop: 80 000 – 85 000 plants/ha. Second crop: 75 000 – 80 000 plants/ha.
